**RE: 2010 Sewer Performance Annual  
Report for Town of Jamestown  
WQCS 00314**

Gentlemen:

I am pleased to provide this sewer report since the Town of Jamestown did not experience reportable sanitary sewer overflows for the year 2010. Our endeavor is to make 2011 just as productive!

The Town of Jamestown collects wastewater and discharges into the City of High Point wastewater collection system where treatment occurs at the Eastside WWTF.

This letter is available on the Town's website ([www.jamestown-nc.gov](http://www.jamestown-nc.gov)) and at Town Hall located at 301 East Main St. Public notices are provided in utility billing. This report is accurate and complete to the best of my knowledge. Should you have questions, please contact me at 336-454-1138.

Respectfully,

Chuck Smith  
Town Manager
